Byte.IT is not a typical tech event. In a landscape where many hackathons and competitions are becoming increasingly commercialized, we aim to bring the focus back to creativity, learning, and genuine innovation

~~~~~ "Give them tools, they'll do wonderful things," ~Steve Jobs ~~~~~

# Attendee Demographics

Byte.IT brings together a highly engaged and diverse school audience from leading institutions across Delhi/NCR, united by a shared interest in technology, innovation and problem-solving. With students, teachers and mentors from top schools across Delhi/NCR. Audience interested in technology, innovation and problem-solving

# Our Past Sponsors

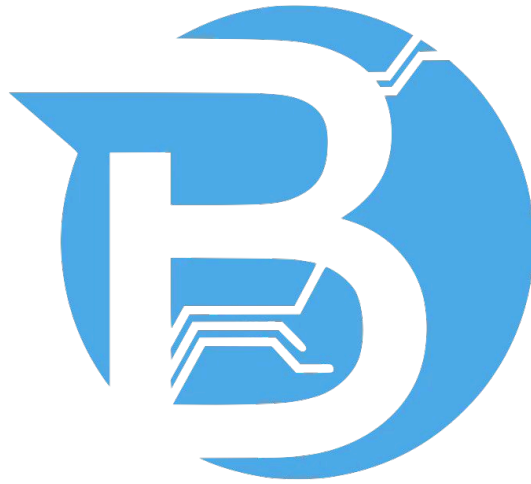

# About Us

Byte Club, the Computer Club of Bal Bharati Public School, Pitampura, is back with the eighth iteration of its flagship annual tech fest, Byte.IT. The event aims to promote the development of technical skills such as programming, robotics and web development among school students. The event shall be attended by tech enthusiast students and teachers from the best schools across Delhi/NCR. Each participant will get a series of challenges which will put their abilities and STEM knowledge to the ultimate test. In 2019, at Byte.IT, we introduced the ByteCTF, the first Indian Capture The Flag (CTF) contest organised by and for high school students.

Thank you for considering the idea of  
sponsoring us. You're not just sponsoring a  
tech fest but sponsoring the future of  
technology!
